## In Memory of Ralph

This educational coloring book is in tribute to a trusty dancing bay horse named Ralph. Owned by LSART responder Sara, he made an amazing working partner. He helped train many responders by being such a bomb-proof horse that he didn't need sedation for training exercises, such as to be washed by groups of students in full body PPE. Having such a patient, calm, and collected live animal made hands on training stress free. He will be dearly missed and a horse that will never be forgotten.
